	Shift Dormitory			

Prospects for the 2017

Opportunity

- Remaining solid market base
- Evolving to a country with dominating power in civil aviation
- Standing gradually up to a level close to the major tourism countries worldwide
- The national cyber development strategy, the Internet Plus Action Plan, and the national big data strategy
- Requirements in informatization level and network information security in civil aviation industry

◆ Challenge

- Constantly changing industry landscape
- New technologies, new products, new operating models and new business models have been emerging at an increasingly hectic pace
- Continuously penetrating the domestic market from overseas competitors
- Augmenting concentration in channels
- Needs of commercial airlines for information technology solutions and ever higher standards of service

Prospects for the 2017

- Strengthening core businesses, developing new businesses, raising capabilities and strengthening areas of weakness
 - Laying a solid foundation in safety and security matters by enhancement of corporate mechanisms, enforcement of accountability, inspection of risks, and ensuring that the relocation and operation of the new operating centre in Shunyi, Beijing proceed smoothly, enhancing its support capabilities of operational safety and information security
 - Switching to a growth strategy of raising the quality of development and enhancing its research and development and service capabilities, guided by technological innovation, driven by capital operation and coordinated through resource allocation
 - Speeding up the transformation and upgrade of its businesses by solidifying the advantages of
 its core businesses, pushing ahead the integration of new businesses and seeking
 breakthroughs in overseas businesses, in order to enhance the group's competitiveness in the
 market
 - Improving its fundamental management by further optimizing the organizational structure, refining the incentive and bind mechanism, strengthening the construction of talent team and enhancing the sustainability of the group's internal driving forces
